#### 4.How much do you like this Draft Master Plan?

Value	Percent	Count
Do not like	1.7%	1
Somewhat like	22.4%	13
Like	41.4%	24
It's fantastic	34.5%	20
	Totals	58

**5.If you rated the plan "do not like" or "somewhat like it" – please explain why.**

ResponseID	Response
8	I live 10 miles north of Dolores. That said, I love the fact that your plan includes benches and shade/rain shelters, trails, areas for dogs and areas for both old people and young people, families can play, easy access to the river for kayaks. You have done an excellent job of providing something for everyone. Also, please leave the "jungle gym" area for kids.
9	Skate park won't be used. 2-3 people don't make up majority of Dolores residents.
10	Too much area devoted to teen sports. I would like to have more space for the bike park and more water fetchers for boarding and boating. I think a larger community garden would be well used as well.
15	Na
17	do not need a pump track or skate park.... very limited use for these two items
28	Really like it, would love more river beach type access and the outdoor exercise area idea sounds really interesting. I wonder if there is anything safely possible with fire pits for colder evenings or even in winter
30	I very much would like to see a skate park!! The master plan appears to have a pump track, and with all the multi level mountain biking in the area

	I feel as though our youth are in much greater need of a skate park!
33	Stages need to be temporary and not become a concert only venue when we need these spaces for our youth to have and use. The focus on stages should be seasonally occasions. Not a full time. Citizens and passers thru will retain in dolores with the park being more focused on recreation and family based activities.
34	I really feel like the town should re think the idea of a skate park. I feel that the skate park in Cortez was brought in with good intentions and has unfortunately attracted a lot of issues.
38	Too many river access plans. A bridge to the beach has great potential to create future problems at the beach area.....too much congestion. I see no environmental considerations where the river is concerned. Attempting to crowd too much into the park. Where will people who attend our larger events be able to camp/RV? e.g. Dog agility event, for one! Dirt trails are excellent. Keep river trail as is. Paved trails reflect heat - climate change consideration. Water consideration. Respect for the river - life around it and in it. In stream Kayak Play area has the potential for overcrowding, spilling out into the river itself!
43	Beautiful plan
45	As a resident in downtown Dolores, I'd like to see a more comprehensive assessment of anticipated impacts to town residents as well as

	<p>a maintenance plan. I'm particularly concerned with noise, light pollution, security, law enforcement, grounds maintenance, water conservation, and overall asset and resource management.</p>
50	<p>Don't want the kayak or pedestrian bridge to impact fishing in the river</p>
53	<p>I don't like the kayak feature. Leave the river alone.</p>
55	<p>Not sure how much the bike and skate areas will be used.</p>
57	<p>It's ALOT! And how would we pay for it? However, is a definite upgrade for many types of people, young and old. Just because I won't use it doesn't mean I don't want it. Variety of usage is important.</p>
65	<p>Track &amp; football stadium-work w/ school</p>

**6.If you rated the plan "like" or "it's fantastic" – please explain why.**

ResponseID	Response
1	good visioning process
4	I think that the park will look nice and draw more people to town.
5	Great options- plenty for everyone.
6	I am not a fan of the pedestrian bridge idea. I do like all the new outdoor activities. I think a skate park is the best idea here. I grew up skateboarding in Dolores and it was not great. A well done skate park right on the river would be incredible. There is a company called Evergreen skatepark and I highly recommend them. They did the new extension at the Telluride skate park.
7	Includes a lot of features while still maintaining large, open areas and natural areas. Connects better to river
8	The master plan offers something for out of town visitors and locals of all ages. About the only thing missing is an indoor exercise/gym area for wintertime and a pickleball court.
12	Community involvement leads to a better community in general. By building this out, it might be a draw for other venues and help support small businesses such as fitness trainers, yoga instructors, bike skill seminars, coaching, etc that might be able to use the space. In addition, it makes Dolores a more attractive

	<p>place to live and generally projects like this have a trickling effect to other nearby communities - making it more of a destination vacation instead of a passing through stopover.</p>
13	<p>It has many diverse uses.</p>
14	<p>very important community asset</p>
15	<p>I thought the process is great. Well done ideas.</p>
16	<p>It's lovely. If there are some large rocks that could be added as a natural type play area for kids. i.e large rocks to climb. Would be a great addition as a landscape feature as well.</p>
18	<p>Very versatile for the community</p>
20	<p>The Dog Park</p>
21	<p>well thought out and good use of space</p>
23	<p>We need places where the kids can go and hang out at that are safe and fun and give them options we also need places like this for families to do as well as the elderly</p>
25	<p>The new plan incorporates some great new features, like the bike park and skate park, which will be a GREAT benefit to the kids of Dolores. Interior loop trail will likely get extensive use and I like the idea of lining it with trees. The dog park would probably destroy the grassy area at the west end of the park. Overall, looks like a great plan. Nice work!</p>

29	<p>The park really needed something for older kids. I love the idea of better river access! This is so exciting for Dolores!</p>
31	<p>More options than what is already there, looks Beau</p>
34	<p>I love all of the other aspects of the master plan</p>
35	<p>The bike park elements, the skate park, the river access and bridge...all the things I /my kids were really hoping for! It's perfect!</p>
36	<p>A beautiful enhancement to the community</p>
37	<p>I think this would be a great addition to the town of Dolores especially a skate park for the kids.</p>
38	<p>Love the ball park, dog park, more shaded areas for picnics, food truck area, multipurpose sports field, basketball court, garden and orchard, skate park. More trees and picnic areas.</p>
40	<p>As long as there is enough shade, that will be a big improvement to the enjoyment of the summer events that are held there.</p>
41	<p>Adding the pedestrian bridge, dog park, bike area and other improvements like parking and trailhead are all items I would use regularly. While I do not live in Dolores, I work here and so spend most of my days in town.</p>
43	<p>Dolores needs more options for our children and adults</p>

44	I'm really excited to see all the improvements to the park, as a town resident I will be taking advantage. My only concern is the increase in costs associated with maintenance- I didn't see anything in the information about how the town is going to defray these costs.
47	Great plan. Versatility and accommodating. Please be sure to add a safe way to get to the beach from the bridge. There will be bicycles and walkers and that stretch of road is narrow and people drive fast.
51	I love the overall plan though I was really hoping to see a nice splash pad for little children (I have photos of really nice ones that are worth putting up). Good job for getting this going!
54	It's such a great place for people to enjoy!! Let's make it the best place for everyone to come and utilize this beautiful space!!
55	Not sure about the bike and skate areas will be used.
56	The additions are perfect for summer and winter festivals and enhanced trail has been needed for awhile now. The skate park and outside exercise area is awesome for our kids! The basketball court tge same. Love,love,love this plan! When will it be completed? :)
58	I think it fits the many types of uses that people that live in and come to Dolores would use it for. Our family might not use everything, but I know

	friends or family will. I especially like the pedestrian bridge and improved river access.
59	Great for the community. Something for every member of the family. Just what this town needs
61	It provide a variety of things for everyone in the community to enjoy the park.
63	I love every aspect. I was thinking it was missing a dog park, and then there it was! If anything, I would vote for a bigger stage and more formal tent/RV camping area to accommodate bigger events
